

DEPARTEMENT PHYSIK UND ASTRONOMIE  
UNIVERSITÄT BASEL

Klingelbergstrasse 82, 4056 Basel

## Condensed Matter Seminar

Winter Semester 2006/2007

Mondays, 16:15 hrs, Lecture Hall 1

### PART 2

- 15th January      **Mykhaylo Evstigneev**, Universität Bielefeld  
*"Single-step rate approach to atomic friction"*  
[host: E. Meyer]
- 22nd January      **Hans-Gerd Boyen**, Universität Ulm  
*"Nanomaterials in contact with each other – interactions & properties"*  
[host: P. Oelhafen]
- 29th January      **tentative: Tim Ashworth**, Universität Basel  
*"Magnetic Force Microscopy of Novel Materials"*  
[host: H.-J. Güntherodt]
- 5th February      **N.N.**
- 12th February      **Meike Stöhr**, Universität Basel  
*"Creation of 2D Supramolecular Structures by Making Use of Self-Assembly"*  
[host: H.-J. Güntherodt]
